## Internet Access

### Frequently Asked Questions

**What Internet services are available from High Desert Air?**

High Desert Air offers wireless Internet connections in parts of Harney County.

**Who can receive Internet access?**

Any potential wireless customer must be in our ever-expanding signal area.

**How much does it cost for wireless Internet services?**

Monthly fees vary from \$30 to \$50 per month, depending on the bandwidth you receive and the method of delivery. Most installations are for \$50 per month.

### Are there any start-up costs?

There are installation costs for a basic wireless connection. Costs may include basic equipment, electricians' fees, and an electrical permit. Extra equipment needs may be required. Call 573-4821 for pricing information.

**How long does it take to receive service once I sign up?**

For wireless access, you will need to schedule a signal test; installation can be completed when electrical work is finished.

**What do I need to do to receive wireless services?**

You need to be able to receive a signal from one of our towers. The wireless signal test is conducted at no charge to the customer. Call 573-4821 to schedule a test. The customer should also have updated anti-virus/malware programs on their computer.
